

A FAMILY HISTORY WORKBOOK

Roots & Branches

Four generations of your family on one tappable chart: every box opens a person page, every person points to their parents, and the record sheets behind them hold the proof.

FIFTEEN ANCESTORS · FOUR GENERATIONS · ONE BOOK OF THE FAMILY

First Steps

This workbook keeps a family the way an archivist would: one chart of fifteen ancestors, one page per person, and record sheets that say where every date came from. Fill it in pencil at the kitchen table; ink what you can prove.

HOW TO USE THIS BOOK

1. Open the pedigree chart and write the fifteen names you know - gaps are fine.
2. Tap any box: the person page behind it holds their vitals, timeline and notes.
3. Follow the kin chips - every page links to its father and mother on the chart.
4. Sit with the living and work through the interview sheets while you can.
5. Log every search in the research ledger and number every source you touch.

[See the example pages »](#)[Open the family archive »](#)[Go straight to the chart »](#)[Interview prompts »](#)

HOW THE BOOK IS BUILT

The chart numbers its boxes 1 to 15 the way genealogists do: a father is double his child's number, a mother double plus one. Each person page repeats its chart number, and its kin chips quote the numbers they lead to, so chart and pages can never drift apart. Family group sheets hold each marriage and its children; the photo ledger captions pictures before the names are lost; the source index gives every fact a numbered receipt.

A NOTE ON PROOF

Memory is a source, not the source. Write what an aunt remembers in pencil, note who said it and when in the research ledger, and only ink a date once a register, certificate or ship manifest agrees. Future readers will thank you for every source number in a margin.

Amelia Hartwell Reyes

VITALS

BORN	12 March 1899 · Gloucester, Massachusetts
MARRIED	4 June 1920 · to Thomas Ellis · Portland, Maine
DIED	30 November 1948 · Portland, Maine
PLACES	Gloucester · Boston · Portland

NOTES

Every date on this page was copied from a record the family still holds - the Bible flyleaf, two parish registers and one ship manifest. Where memory and paper disagreed, the paper won.
