

THE HOUSE BOOK

ISOMETRIC VIEW · NOT TO SCALE

Every room, every system, every serial number – filed. Rooms carry their paint codes, measurements, and appliance cards; systems carry shutoffs, specs, and inspections; four season checklists carry the maintenance year. When something breaks at nine on a Sunday night, this book knows.

[Open the manual »](#)

How To Run The House

The House Book is the binder your house never came with. Rooms hold paint codes, measurements, and the appliances that live in them; five system pages hold shutoffs, specs, and inspection checklists; four season checklists carry the maintenance year. Fill it in over one afternoon – thank yourself for a decade.

■ HOW TO WORK THE BOOK

1. Walk the house once with this book – serials, paint codes, and shutoffs in one pass.
2. Tap a room on the dashboard; its page holds finishes, measurements, and appliance cards.
3. Tap a system for its shutoff callout, specs, and inspection checklist.
4. Open the season checklist at each equinox and solstice – tick, date, move on.
5. Log every repair in the ledger and keep contractor numbers where panic can find them.

■ WHERE TO BEGIN

[The worked example »](#)[Your house »](#)[The dashboard »](#)[The seasons »](#)

■ EMERGENCY SHUTOFFS · FILL THESE IN FIRST

WATER MAIN

GAS VALVE

MAIN BREAKER

Ninety seconds hunting for a valve is fine on a Tuesday afternoon and very bad with water coming through a ceiling. These three lines are the whole point of the book.

■ NOTES

The Worked Example

One utility room walked end to end – paint codes, measurements, fixtures – and its dishwasher filed with serial, warranty, and a service history. This is the one afternoon of work the whole book asks for, shown done.

Everything on this desk is marked EXAMPLE. Your live manual runs from Your House.

■ ON THE DESK

The utility room, worked »

The dishwasher card »

■ THE MANUAL

■ HOW THE WIRING WORKS

The dashboard chips land on the same room and system pages this hub lists – every card is one tap from anywhere. Rooms own their appliance cards, so the page order reads room, its appliances, next room. The seasons chain into one another, and every title block returns here.

■ HOUSE NOTES

■ PAINT & FINISH

WALLS	Harbour Fog 214 – matt emulsion · repainted 2023
TRIM	Gull White 03 – satinwood · 2023
FLOOR	Slate-grey vinyl tile · laid 2019

■ FIXTURES & FITTINGS

Stainless sink + mixer tap (2019)
Oak-front wall cabinets x 3
Extractor fan, 15-minute timer
Double sockets x 2 – one switched
Ceiling: 2 x GU10 spots

■ APPLIANCES IN THIS ROOM

TAP A CARD

Kestrel KD-40 dishwasher »

■ BULBS, QUIRKS & CONSUMABLES

Condensation on cold mornings – run the extractor and crack the window when the dryer is on. The stopcock for the sink hides behind the left cabinet base panel.

MODEL	KD-40 QuietDrive
SERIAL NO.	KD40-2231-08847-EU
PURCHASED	March 2022 · Harbour Appliance Co.
WARRANTY ENDS	March 2027 - 5 years, drum and motor

■ WHERE THE MANUAL LIVES

Red folder, kitchen drawer file · PDF saved in Home/Manuals

■ SERVICE HISTORY

DATE	WORK DONE · PARTS · COST
06 Jun 2023	Filters and spray arms cleaned – slow-drain fault cured, no parts
14 Feb 2024	Inlet hose washer replaced under warranty – no charge

■ QUIRKS & SETTINGS

Rinse aid at setting 3 suits our hard water. Error E4 means a blocked filter – clear it, then hold Start for three seconds to reset.

Your House

The dashboard reaches every room and system; rooms own their appliance cards; the seasons keep the maintenance year turning. Start with the emergency shutoffs on the guide page, then walk the house.

This copy: 8 rooms · 12 appliance cards. Set roomCount (4-12) and applianceCount (6-20) in the generator config.

DEVICE REGISTER · ONE PER LINE

INSPECTION · TICK AND DATE

☐ Smoke alarms tested this month	
☐ CO alarm near every sleeping floor	
☐ Extinguisher pressure in the green	
☐ Escape routes clear on every floor	
☐ First-aid kit stocked and findable	
☐ Alarm batteries changed at the clock change	

Spring

The thaw audit – undo winter, ready the cooling.

■ THE CHECKLIST		TICK · DATE
☐	Gutters and downspouts cleared of winter debris	
☐	Roof scanned for lifted or missing shingles	
☐	AC serviced and test-run before the first hot week	
☐	Outdoor taps back on – check for winter splits	
☐	Sump pump tested with a bucket of water	
☐	Window screens up, draft strips down	
☐	Grade and drains watched through one hard rain	
☐	Smoke and CO alarms tested at the clock change	
☐	Dryer vent duct pulled and cleaned	
☐	Deck and fence checked for winter heave	

■ ALSO THIS SEASON

Date the ticks. "When did we last do that?" is the question this page exists to answer.

Summer »

Summer

The open-air season – paint, seal, and keep the cool running.

■ THE CHECKLIST		TICK · DATE
☐	AC filter checked monthly while it runs	
☐	Exterior caulk and sealant touched up	
☐	Deck, fence, and trim stained or painted	
☐	Wasp nests swept from the eaves early	
☐	Garage door tracks cleaned and lubricated	
☐	Irrigation and hoses checked for leaks	
☐	Water heater part-drained to clear sediment	
☐	Bathroom fans and range hood degreased	
☐	Windows washed – sills and weep holes cleared	
☐	Paths and paving re-levelled where frost lifted them	

■ ALSO THIS SEASON

Date the ticks. "When did we last do that?" is the question this page exists to answer.

Autumn »

Autumn

The button-up – heat ready, water out, leaves handled.

■ THE CHECKLIST		TICK · DATE
☐	Furnace or boiler serviced before the cold	
☐	Fresh filter in for the heating season	
☐	Gutters cleared after the last leaf-fall	
☐	Outdoor taps drained and insulated	
☐	Weatherstripping renewed where drafts bite	
☐	Chimney swept before the first fire	
☐	Roof and flashing checked before winter	
☐	Snow tools and salt where you can reach them	
☐	Lawn aerated, beds mulched against frost	
☐	Ceiling fans reversed to push warm air down	

■ ALSO THIS SEASON

Date the ticks. "When did we last do that?" is the question this page exists to answer.

Winter »

Winter

The long watch – frost, damp, and the quiet indoor jobs.

■ THE CHECKLIST

TICK · DATE

☐	Eaves watched for ice dams after snow	
☐	Furnace filter checked mid-season	
☐	Vulnerable pipes left dripping in hard frost	
☐	Condensation wiped, ventilation cracked open	
☐	Salt and grit topped up after each storm	
☐	Main water valve exercised so it never seizes	
☐	Drains deep-cleaned – the indoor month's job	
☐	Caulk and grout touched up in the bathrooms	
☐	Manuals, serials, and this book brought up to date	
☐	Spring projects listed while the faults are fresh	

■ ALSO THIS SEASON

Date the ticks. "When did we last do that?" is the question this page exists to answer.
