

A CHESS REPERTOIRE IN PAGES

Opening Atlas

Four opening chapters drawn as a navigable move tree: every position is a page, every candidate move a tap deeper, every transposition a signpost back to the mainline.

[Open the study guide »](#)

FOUR CHAPTERS · FORTY POSITIONS · ONE BOOK OF LINES

Study Guide

The atlas holds a full opening repertoire as a tree of positions. Read a chapter like a book - the pages run down the mainline first, then through each branch - or navigate it like a map: every candidate move on a position page is a link to the position it creates.

HOW TO USE THE ATLAS

1. Pick a repertoire hub - White or Black - and open a chapter.
2. Play the mainline on a real board, page by page, to its tabiya.
3. Return and follow each branch; transposition pages jump you back to the line they rejoin.
4. Write what you learn on the annotation lines - the atlas is a workbook, not just a book.
5. Rebuild lines from memory on the practice worksheets, and score each session in a study log.

READING A POSITION PAGE

Top: the opening it belongs to and the position name. Middle: the diagram, drawn from the White side, with the move list that produced it and the book assessment beside it. Bottom: one line on the idea, then the candidate moves - tap one to follow it. A candidate marked "transposes" is a reference page: it lands on the original position, wherever it lives in the book.

White Repertoire

Two weapons for the first player: the patient Italian and the classical Queen's Gambit. Learn each mainline to its tabiya first, then return for the branches.

1 Italian Game »

A calm system with c3 and d3: castle short, regroup the queen knight, and outplay your opponent from a sound centre. Mainline plus the Two Knights move order.

[OPEN THE CHAPTER »](#)

2 Queen's Gambit »

The classical main road: pressure d5, pin with Bg5, and steer the Orthodox tabiya toward the minority attack. Accepted and Slav replies signposted.

[OPEN THE CHAPTER »](#)

Study order: play through each chapter mainline to its final tabiya, then return for the branch pages. The assessment box gives the book verdict at every stop.

WHITE REPERTOIRE · CHAPTER ONE

Italian Game

**THE PLAN**

Open 1. e4 e5 2. Nf3 Nc6 3. Bc4 and choose the quiet route: c3 with d3, castle short, and keep the pieces on the board. Plans, not memorised tactics, carry this chapter - Re1, h3, the Nbd2-f1-g3 regrouping, and only then a central break.

KEY IDEAS

- Meet 3...Bc5 with 4. c3 and 3...Nf6 with 4. d3 - one setup against both.
- Standard regrouping: Re1, h3, then Nbd2-f1-g3 eyeing f5.
- Break with d3-d4, or expand with a4, only when development is complete.
- The Two Knights page transposes straight back into the mainline.

Begin the line »

The chapter opens on the Italian position after 3. Bc4 - every line in it starts there.

Queen's Gambit

**THE PLAN**

Open 1. d4 d5 2. c4 and press on d5 for the whole game. Against the Declined we follow the Orthodox mainline with Bg5, e3 and Rc1 to the classical tabiya; the Accepted and the Slav each get a page pointing the way.

KEY IDEAS

- The gambit is temporary: after ...dxc4 White always regains the pawn.
- The Bg5 pin softens d5 by tying down its defender on f6.
- Rc1 answers Black's freeing ...dxc4 and ...c5 ideas in advance.
- The tabiya plan: castle, then the b4-b5 minority attack on the c6 chain.

BLACK REPERTOIRE · CHAPTER THREE

Sicilian Defence

**THE PLAN**

Answer 1. e4 with 1...c5 and steer for the Najdorf: ...d6, ...Nf6 and ...a6. Against the Classical 6. Be2 the strike 6...e5 gives comfortable play; the sharp 6. Bg5 and the sidelines each get their marching orders.

KEY IDEAS

- Trade the c-pawn for the d-pawn: centre majority, play on the c-file.
- ...a6 takes b5 from both knight and bishop and prepares ...b5.
- After ...e5 the backward d6-pawn is a fair price for space and activity.
- The sidelines (3. Bb5+, 2. Nc3) get simple, solid answers.
